

Okolab Sample Holders & Stage Adapters: Features and Benefits

okolab

Cost Effective

- Okolab Universal Sample Inserts and Stage Adapters are affordably priced.
- No need to double up on fixed and live cell specimen holders.

Quality Built

- Our Inserts are robustly built to withstand daily use in and out of our incubators.
- They are easy to use and designed with ergonomics in mind.

Versatile

- Get more value from your Okolab Inserts by using them for all on-stage applications, even without an incubation chamber - simply add a multiwell plate adapter that fits your stage.
- Future-proof your setup: in case you add incubation later on and already have our Universal Inserts, they're compatible with nearly all Okolab chamber models.
- Use our four-slide holder 4xGS-INSERT to transform your inverted system to a slide scanner!

4xGS-INSERT

All INSERTS fit directly inside a multiwell plate holder. Use your own, or use one from Okolab, shown below.

K-FRAME-MW-HOLDER

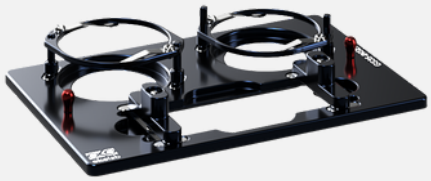

Hosts a multiwell plate, or any Okolab INSERT.

Fits most K-FRAME stages, including: ASI/Marzhauser/Zaber.

Available Universal Inserts & Adapters:

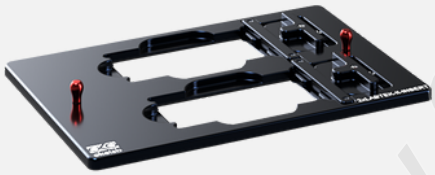

GS35-INSERT

1xLABTEK-INSERT

1x60-INSERT

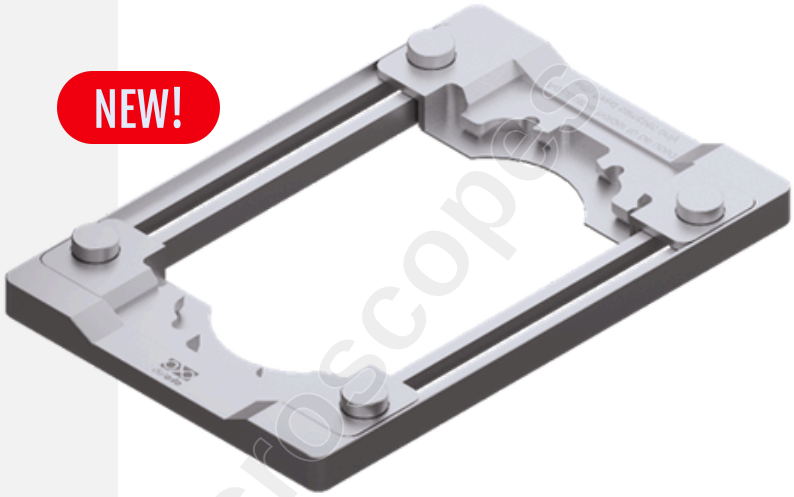

2xLABTEK-II-INSERT

1x35-INSERT	4x35-INSERT
1xLABTEK-II-INSERT	1xGS-INSERT
2x35-INSERT	LABTEK-35-INSERT
2xGS-INSERT	LABTEK-II-35-INSERT
2xLABTEK-INSERT	LABTEK-60-INSERT
2x60-INSERT	LABTEK-II-60-INSERT
3xGS-INSERT	GS60-INSERT
4xGS-INSERT	6035-INSERT

Our wide variety of INSERTS accommodate nearly all commercial culture dishes:

GS = 75x25mm | LABTEK = 57x25mm | LABTEK-II = 55x24mm

NEW!

ADJUSTABLE-INSERT

Perfect when an adjustable-style holder is preferred for imaging FIXED samples, even when the Okolab chamber is kept installed on the stage. ADJUSTABLE-INSERT uses two smoothly running brackets with a variable clamping range. It can host round dishes with diameter from 35 to 60mm, and slides with dimensions 25-54 x 24-92mm. Fits inside Okolab H203/H303/UNO chambers, or in any multiwell plate holder.

Adapters

K-FRAME-MW-HOLDER:

Holds a multiwell plate or Okolab INSERTS in stages with K-Frame opening.

Adapters to fit other stage models are available.
